About Me

I get excited about creative problem solving, especially if it includes code. I participated in Academic Decathlon in high school. I am always available for a karaoke competition. Trivia nights delight me. I could spend the rest of my life just reading books. And my family's enchilada recipe is the best around.

Education:

Coding Bootcamp

July 2018
University of Arizona
Gilbert, AZ

BA in Psychology

August 2009
University of Arizona
Tucson, AZ
